## FOR IMMEDIATE RELEASE

## 2016 Forbes-Recognized Business Management Firm ESG to Launch Foundation and Expand

DENVER December 12, 2016 - Execution Specialists Group (ESG) is pleased to announce the launch of their corporate foundation, <u>Making Strategy Happen</u> (MSH), as well as a corporate office expansion.

Since ESG's inception in 2008, the nationally recognized strategic *management* consulting *firm* continues to evolve and grow in both clientele and associates, expanding into a larger real estate footprint shortly after receiving acknowledgement as one of Forbes' "2016 Top Management Consulting Firms."

While ESG services some of the largest companies in the world, solving complex and challenging problems facing businesses today, MSH Foundation will serve as the charitable arm of the firm. The organization is established to positively impact communities nationwide by supporting nonprofit organizations with the donation of time and expertise of ESG employees. This, in turn, empowers those committed to achieving self-sufficiency, intending to give community members in need a hand up instead of a hand out.

"Our goal with MSH Foundation is to help implement change in organizations and individuals who seek to better themselves and the community," said Mark Newhall, founder and chief executive officer of ESG. "After years of working to assist clients with complex business issues, we believe the best way to give back is to donate the same expertise."

ESG associates will provide support through the MSH Foundation in all functional disciplines including sales, customer care, merchandising, supply chain, real estate, technology, human resources, finance, and more. Closing out 2016, the foundation has instituted its first partnership with <a href="Women's Bean Project">Women's Bean Project</a>, whose mission is to change women's lives by providing stepping stones to self-sufficiency.
